Thief Enters Carbon Trading Co. Store

Edward Silvers is being held by Drumheller detachment, R.C.M.P. in connection with the break-in and theft from the Carbon Trading Company store, owned by Mr. Morris Switzer, on Tuesday morning, July 5.

Early Tuesday morning a rock was thrown through a plate glass window in the store door. The door was locked, but entry was gained through the hole in the glass. Shirts, socks, pants and sweaters of a total value of \$75 were taken, and about \$40 in cash out of the till.

Fred Liddle, of Carbon, noticed the broken glass door about 8:30 a.m. Tuesday, and he informed Mr. Switzer, who called R.C.M.P. Constable W. Pickell.

Miss L. Milligan reported to police that a duffel bag had been left at the home of her mother, Mrs. W. Milligan, about 5:30 a.m. The stolen clothing is reported to have been found in the bag.

Constable Keith Sargeant of Drumheller detachment of the R.C.M.P. and Constable Pickell investigated. Silvers is held at Drumheller and will appear in court Thursday, but no charge has yet been made. It is understood that he was discharged from a small travelling fair in the Carbon area the previous evening.

PRESERVING CRAFT OF MAKING GOLD COINS

The Royal Mint in Britain is making 100 thousand sovereigns which will never be used for money. They will remain as part of the nation's gold reserve and will not be issued to the public. These gold coins are being struck for a very special purpose, to preserve the inherited knowledge and craftsmanship in making gold coins. The craft of gold coinage requires a different technique from that used for other metals.

Barley Contest Closes July 15

Farmers with prospect of a good barley crop are urged by the Contest committee to enter it in this year's National Barley Contest. All entries must be in hands of the respective provincial chairmen of the Committee or with the Committee itself by July 15. Entry forms as in other years are available from the nearest agricultural representative or from the local elevator agent.

As soon as entries are received by the provincial committee, the applicant will be registered as a contestant in the National Barley Contest. Mail entry forms as soon as possible to A. M. Wilson, department of agriculture, Edmonton.

GOLDEN WEDDING OBSERVED AT KIMBERLEY, B.C.

Mr. and Mrs. William Robertson of Upper Blenheim section of Kimberley recently marked their golden wedding anniversary—at Kimberley with a family gathering.

Present were their sons, Mr. and Mrs. W. R. Robertson of nearby Marysville, Mr. and Mrs. David Robertson of Chapman Camp, and their daughter, Mr. and Mrs. W. Milligan of Carbon, and all their grandchildren. Mr. Robertson's brother, James Robertson of Lethbridge also attended the celebration.

HOW'S BUSINESS

How was business during the first half, what's the outlook for the second half? The Financial Post made an industry-by-industry survey, found conditions still buoyant and over-all considered likely to remain so for the balance of the year at least.

Employment and over-all industrial production figures were still at high levels. Steel was in a particularly strong position. Weakness of base metal prices in U.S. was having little of an effect on Canadian production schedules. Consumers still have plenty of money to pour into retail cash registers.

FORMER LOCAL BOY MARRIED AT BEISEKER

St. Mary's Church, Beiseker, was the scene of a pretty wedding on Tuesday morning, June 28 at ten o'clock, when Viola Mary Laviole, daughter of Mrs. A. Glogoue of Cornwall, Ontario, was united in marriage to Ted Tutt of Swallowell, B.C. Father Tennant officiated.

The bride, who was given in marriage by her brother, Mr. Wilfred Laviole, wore a floor-length white satin wedding gown with three-quarter length veil and tulle and lace inserts, and she carried a bouquet of red roses.

The maid-of-honor, Miss Theresa Albert of Carbon, was gownned in floor-length pink net with cap veil and gloves to match. Bridesmaid was Miss Betty Wilson of Hanna, who was attired in a floor-length blue gown with cap veil and gloves to match.

Groomsmen were Jack Tutt, brother of the groom, and Pat Rubin. A reception for twenty guests was held in the afternoon at the home of Mr. and Mrs. Leo Laviole.

Colored Giants Beat House of Carbon in Exhibition Game

The Carbon Athletics and a number of good sports staged an exhibition baseball game at the local diamond on Sunday, July 3. The Athletics appeared at the diamond, festooned with flow, flowing beards which had suddenly taken root and sprouted in the night. The opposition also put in an appearance with skin of a darker hue, suddenly acquired by the industrious use of shoe polish and elbow grease.

Although the beards got fairly warm and the shoe polish started to run the boys stuck it out and prevailed the fans with a good ball game. The colored aggregation came out victorious by a 6-4 score. On Monday there were a few stiff arms, sore muscles and aching legs.

Athletics (House of Carbon)—G. McLeod c, C. White 3b, D. Pattison 1b, Buckner p, Poxon ss, D. McLeod 2b, D. Poxon rf, O. Gackie lf, J. J. Reid c.

Colored Giants—E. Rempler c, F. Fox 3b, H. Hunt cf, G. White p, D. Diehl 2b, W. Bernman ss, R. Nash 1b, J. Schmidt lf, R. Heath rf. The Carbon Athletics also took in the Delta sports. They defeated Mitchell 13-2 in their first game but dropped their second to Wayne by an 11-6 score.

FARMERS BORROW MORE

Canadian farmers are making good use of borrowing facilities provided for them under the Farm Improvement Loans Act. The total amount loaned in 1948 was ahead of the 1947 total and 1949 borrowings to date are estimated to be well up to the figures at this time a year ago, may be considered higher.

The primary purpose of the Farm Improvement Loans Act has been described as an effort to fill a gap in the Canadian credit system to meet the needs of agriculture. It was aimed at providing intermediate and long term credit for farmers under more convenient terms and conditions than existed formerly.

Production 25 Per Cent Above Pre-war Figures

Production in United Kingdom industry and agriculture is now 25 per cent above the pre-war level according to official figures recently released. This remarkable rise in output is due not to longer working hours—the average working week is indeed one more and one half hours shorter than in 1938—but to a sharp decline in unemployment and above all to increased productivity.

Not On The Menu

The newly married couple stopped in a local restaurant and after their meal a waiter asked: "Is there anything else?" "Yes," replied the bridegroom, "bring us a honeymoon salad." "I beg your pardon, sir," said the waiter, "but what is a honeymoon salad?" "Lettuce alone."

From 'Viras' to Vaccinations...

Rome's centuries-old Palazzo Venezia, which not long ago housed Mussolini's offices—the well-known balcony is over the door at right—is the site of the Second World Health Assembly. The Assembly will further develop the United Nations' world-wide attack on disease through the World Health Organization (WHO).

BABY BAMBI—In his many years' experience, Chief Forest Ranger Dave Spencer, of the department of lands and forests district office at Espanola, Ont., had never seen a deer as small as the one he supports with his hand. "Bambi" was found, its nose scorched, after a forest fire in Alchemon township. The animal, which only weighed 3½ pounds, died shortly after it was rescued by forest ranger.—S.N.S. photo.

WILD GEESSE on the hay meadow near the home of Mr. and Mrs. Reg. Parkinson of Francois Lake, B.C., stayed over three weeks and became quite tame, taking little notice of passing cars and even walking on the road ahead of the school children. Five white geese came at first, then 12 snow geese and one brant and finally eight Canada geese; they all left together.

MOTHERS STAGE REVOLT FOR TRAFFIC—Protesting the traffic death of an eight-year-old boy, 150 angry mothers of Brooklyn, N.Y., are shown with their children as they blocked traffic for 30 minutes asking for improved traffic conditions in their area. The mothers asked that a 10-mile speed limit be put into effect and that additional patrolmen be assigned to enforce no-parking restrictions.—S.N.S. photo.

BICYCLE RIDERS KILLED BY CAR—Joyce Lodge and Jerry Thompson, 11, both residents of housing emergency camp at Malton, Ont., lost their lives when bike on which they were riding was hit by a car just 200 yards from their home. Joyce had accepted a ride on boy's bike after she had missed last bus home.—S.N.S. photo.

WOMAN'S CURIOSITY SAVES HER LIFE—Curiosity killed the cat but in this case it saved the life of Mrs. Charles Flick of Toledo, O. Mrs. Flick, who was sitting in her husband's new car, got out to look at scratch on the fender just as the car rolled into Niagara River. Mr. Flick had left the car to inspect the view, leaving his wife alone in the car. The vehicle, only two months old, is shown being salvaged from river.—S.N.S. photo.

DELEGATES ATTEND I.F.A.P.—Delegates from all over the world came to Canada recently to attend the International Federation of Agricultural Producers in Guelph, Ontario. When the convention was over, the more than 100 delegates headed for Western Canada on a tour of inspection. They were received with enthusiasm in Lethbridge, where they saw the annual Nanton Horse Show and Rodeo. Among exhibits that interested them particularly was this lineup of handsome Palomino horses here shown in front of the grandstand.

WETS RECEIVE BAD BEATING IN LIQUOR VOTE—Dry for 43 years, Owen Sound remains the only city in Ontario under local option law after approximately 8,000 out of 12,600 voters decisively defeated the repeal of local option. Defeat of wets on five issues at Owen Sound were responsible for smiles on faces of Lois Smith, Ruth Moore and Doris Smith. The Georgian Bay centre, now the only "dry" city in Ontario, turned down proposals for liquor store, beer warehouse, beverage rooms and liquor lounge.—S.N.S. photo.

LIGHTER MOMENT AT A BIG FOUR SESSION—Relaxing between deliberations, members of the four-power Council of Foreign Ministers chat together in an amiable mood during a party held in their honor in Paris. The men, (left to right) are: Ernest Bevin, Great Britain; Andrei Vishinsky, Russia; Dean Acheson, U.S., and Robert Schuman of France. The foreign ministers have reached an agreement regarding the German problem but have yet to solve problem of a treaty for Austria.—S.N.S. photo.

NOTHING BETTER—What's better than wandering through the woodlands on a rare summer day? Nothing—so little Albert and Donald Champ of Howick, Que., make a habit of it.

WEIRD CREATURE—The weird appearing creature Bonnie Higley of Enterprise, Ont., is holding in her arms is a baby owl, just at the stage where it is losing its baby feathers. Bonnie saved it when it was about to be killed in its nest by some other boys.

CROWNED "MISS HALIFAX" OF 1949—Betty Kane, 20, a receptionist, was crowned "Miss Halifax of 1949" at the second annual Press Club ball held in Halifax. Betty Jane Ferguson, Miss Halifax, and Miss Canada of 1948, is seen picking crown on her head. Chosen from 23 other contestants, she will compete in Miss Canada pageant which will be held in Toronto in August.—S.N.S. photo.

WESTERN RURAL WOMEN who attended the Manitoba Women's Institute Convention held in Winnipeg at the University of Manitoba, included members of the Manitoba Advisory Board of the W.I. They are, from left to right: Mrs. D. L. Cameron, from Manitou, provincial president; Mrs. John Rose, from Ochre River, treasurer; Miss Frances I. McKay, who is director of Women's Work, Manitoba Department of Agriculture, and Mrs. G. C. Catley, of Sanford, vice-president.

FRIGHTENING SIGHT—A sight like this is always a frightening thing, though here the contents of this building were destined to go up in smoke anyhow. It is a tobacco bin on the farm of Mrs. Alida Van Ooteghem, Glenmeyer, Ont.

WINNER—Five district beef calf clubs brought their animals to the Edmonton, Alta., exhibition grounds for their general show following local achievement days in the home districts. Winner of the grand championship in the finals over the five beef clubs competing was Walter Gurka, Blau, Alta., member of the Lamont Calf Club.

JERSEY MADE THE HIGHEST SHOWING of the Dairy breed at the 2948 Ormatown exhibition held stepped to third position behind Ayrshire and Holsteins with 77 entries. This senior and grand champion Jersey female, Wendybrook Mathilda, owned by Swiss farmer, P. Veillon of Breckenburg, Que., was a high winner.

Get New Pep, Vim, Vigor

What a world! Every man and woman who has ever lived has been told that a healthy body is a happy body. But how many of us have actually achieved this goal? The answer is, not many. The reason is, we have not been given the proper guidance. The Carbon Chronicle is now publishing a series of articles which will help you to understand the true meaning of health. These articles will be published in the Carbon Chronicle, and will be of great value to you. They will tell you how to gain weight, how to keep it, and how to stay healthy. They will also tell you how to avoid the common pitfalls of dieting and exercise. So, if you are interested in health, and in gaining weight, then you should read these articles. They will be published in the Carbon Chronicle, and will be of great value to you.

NEW DRUG WILL INCREASE
MILK YIELD

A new drug which can increase the milk yield of dairy cows is announced by scientists of the Dairy Research Institute, Reading, England. A few tasteless tablets of the drug—L. Thyroxine—have, they claim, raised the average yield of each test cow by nearly five pints a day.

YOUR GOOD TASTE

At this season of the year green and leafy vegetables are available and wise housewives take advantage of these excellent, health-giving foods. They form a welcome contrast with the tinned or frozen foods most of us use during the winter months. Make sure you take advantage of the fine selection of vegetables now available. Your table will reflect your good taste.

LITTLE ITEMS OF
LOCAL INTEREST

Mr. and Mrs. Russell Snell and Mr. and Mrs. Clarence Guynn spent a week at Pine Lake on a fishing trip.

Chiff White was a Calgary visitor last week.

Mr. and Mrs. Doug Prowse were Calgary visitors Sunday.

Mr. Heath Gordon spent a few days visiting with his parents prior to taking six weeks summer school.

The annual Rose Ball was held Wednesday evening, June 29, and despite heavy rains a good time was had by all.

Some refinishing work is being done on Garrett Motors.

The annual Legion picnic was held Friday, July 1, and all report an enjoyable time.

Chris Thurnbert was a week-end visitor with friends at Ponoka.

Mr. and Mrs. F. Thurnbert of McAdam, New Brunswick, and their son Harry, of Edmonton, have been visiting at the home of Mr. Ross Thurnbert.

A PUFF OF SMOKE

Many people frequently use gasoline or lighter fluid to remove spots from clothing or as a general cleanser for machinery. But gasoline is one of the most dangerous fluids that can be used around the home. It evaporates readily and the poisonous gas it forms explodes easily. It is a fire hazard of the first order. Other less volatile cleaning agents are frequently much safer and more effective. Commonsense health and safety habits save lives. Don't take needless risks. The life you save may be your own.

EXPLORATION IN B. C.

A small United Kingdom expedition which intends to explore a little known part of British Columbia during the next four months, has arrived in Canada. The party of four, led by Captain C.H. Polham-Burn, will establish a base camp between the Sifton Pass and the headwaters of the Skidne River, 300 miles north of Port St. James, and carry out plant collecting, map-making and mountaineering. Geological, meteorological and zoological studies will also be undertaken. Backing for the expedition comes from the Royal Horticulture Society, the British Museum, and the Royal Botanic Gardens at Kew and Edinburgh. A comprehensive series of colour photographs will be taken to help their work.

T B CAN BE CURED

Medical records show that nine out of ten persons suffering from tuberculosis, whose infections have been discovered early, recover from the disease. And some experts estimate that if all cases of TB could be caught in their early stages, the disease could be wiped out completely in 50 years. TB is slow to cure but it is curable and it is preventable. Guard against the danger of TB. Have a chest x-ray as soon as possible.

PAINTING POINTERS

Painting is often a hazardous occupation, as anyone who has seen painters suspended high in the air on a bridge or building can attest. But another danger to painters is toxic vapors that frequently rise from lead paints in confined spaces. Spray painting is especially dangerous in this regard and painters should always be equipped with suitable safety devices. Provincial health departments can supply information on safe painting practices in industry.

FARM IMPROVEMENT LOANS
OBTAINABLE AT B OF M
FOR ANY USEFUL PURPOSE

What do you need to increase your success in farming and your comfort at home? You may be surprised to find how many good things you can buy with a Bank of Montreal Farm Improvement Loan.

Why not check the following list? Construction, repair or extension of buildings, including homes; tractors, trucks, machinery, implements; livestock; electrical, heating, or water systems; fencing, drainage, or land improvement; washing or milking machines, refrigerators, cream separators, motors or other electrical appliances.

The only charge you pay is a simple interest of five per cent, and repayment terms are easy. That's why thousands of Canadian farmers borrow from the B of M every year. They know that a Farm Improvement Loan more than pays its inexpensive way by making possible purchases that quickly bring more profits and comfort.

Now is the time to get ahead. See Jack Barr, B of M manager at Carbon, Alberta. He'll gladly discuss your requirements with you.

THOSE TOES

I cannot imagine why women suppose we like to be able to see their big toes.

Those knobs with a nail, rather battered and blue,

Which coyly protrude from the end of the shoe.

Sometimes the big chap's not alone in his pride;

Two crushed little digits peep out at the side.

The heel is half-naked—in fact, more and more

One wonders just what the queer shoe can be for!

(Well, why not arrange for another large hole

And let the glad world see a piece of the sole?)

One day—who can say?—a new fashion may come,

A glove that exposes the end of the thumb.

While small frozen knuckles pop out here and there.

Inviting the male to a reverent stare.

Dear Ladies, we do owe your numerous charms;

We like to see bits of your legs and your arms;

We shall not complain of an ankle that shows;

But do not expect us to love your big toes.
